	Slightly Stirry: 7 head		Slightly Stirry: 12 head	
	These EU Angus X Angus heifers worked well through the assessment process as well when inspecting in the paddock. You can refer to the video as the heifers are not fussed and work well off pressure and move well through the yards.			
Handled With	Bikes , Dogs , Horses , Vehicles			
Assessor Comments	Here is a great opportunity to purchase a neat B-double of EU and Grass eligible Angus x Angus heifers. With all the hard work done, you will buy with confidence. These heifers have been weighed into feedlot specs to average 433kg FULL at assessment. These heifers have had a great start from forage sorghum over the summer onto oats in April this year. Heifers have been preg tested empty July 29th and were given their first bovis MH-IBR vaccination on the 16/9/25. These heifers would suit a lot feeding program or would easily fit into a breeding program if the buyer wished to increase their EU female breeding numbers. Heifers would also suit a PTIC trade if they were joined to a bull of your choice. Please note in photos - 3 heifers having a slight blue eye. ***Please note delivery. If you wish to wait 14 days for Bovilus, price will be renegotiated to factor weight gain at the equivalent c/kg at conclusion of the sale. VENDOR HAS 2 DECKS OF EU SHORTHORN HFRS SAME SALE
