	Heifers work well off pressure but have not spent much time in the yards or crush. These cattle respond well to pressure and move throughout the yard and assessment with no dramas at all.			
Assessor Comments	"Wendouree" is a 4th generation farming and grazing operation. They have been breeding shorthorn's since the late 1950's. All bulls bought from 'Turanville Shorthorn's' for the last 20+ years. Here is a great opportunity to purchase a light two decks of EU and Grass eligible Shorthorn heifers. With all the health treatments carried out from weaning to today, you will buy with confidence. These heifers have had a great start from forage sorghum as weaners onto oats in April this year. Heifers have been preg tested empty July 29th and were given their first bovis MH-IBR vaccination on the 16/9/25. ***Please note delivery. If you wish to wait 14 days for Bovilus, price will be renegotiated to factor weight gain at the equivalent c/kg at conclusion of sale.*** PLEASE NOTE THERE IS ONE SHORTHORN X HEIFER, AT BUYERS REQUEST WE ARE ABLE TO REMOVE FROM THE SALE.
