Assessor Comments	A quality line of 8–9 month old Angus x Friesian cross steers, currently grain-fed and showing excellent weight-for-age performance. These steers exhibit the desirable carcase traits of Angus genetics. They are well-grown, structurally sound, and display good depth and length through the body. Accustomed to grain and yard environments, they are forward in condition and progressing well. Their quiet temperament, combined with strong growth potential, makes them ideal for continued feeding programs targeting domestic or export slaughter markets. Please note vendor has 2 other lots in sale.
