Assessor Comments	A quality line of 10-11 month old Angus x Friesian cross heifers, currently grain-fed and showing excellent weight-for-age performance. These heifers exhibit the desirable carcass traits of top Angus genetics. They are well-grown, structurally sound, and display good depth and length through the body. Accustomed to grain and yard environments, they are forward in condition and progressing well. Their quiet temperament, combined with strong growth potential, makes them ideal for continued feeding programs or for someone to take on as future breeders. Please note vendor has 2 other lots in sale.
