Assessor Comments	A quality line of Angus weaner heifers, August/September 2024 drop. EU accredited and yard-weaned for 5+ days. These heifers have come through a tough season but are on the do, showing strong recovery and responding well to feed. They present as an ideal line to fit into either a breeding or feeder program moving into spring. Ready to perform given the opportunity. Note: A small percentage of the draft show signs of pink eye scarring. These are superficial only and are not expected to impact long-term performance.
