	These heifers have not had a lot of handling till the last month or so since coming back from agistment and are generally good to handle , plenty of block but an odd heifer need more room . They have also been through the yards 2 days in a row, including preg testing and all settled down well when photos were taken		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	A good line of well grown PTIC Heifers . One Charolais x heifer can be omitted from lot if she doesn't suit your program. These heifers show softness ,thickness and depth of body and will make wonderful cows into the future. safely joined to a Dance Angus bull that has been used over heifers in the past. Preg tested by an experienced operator in Robert Ferris and heifers look to be up on the job. Will not disappoint,
