Assessor Comments	This is a good line of 29 station mated Angus cows & calves , offering the purchaser an opportunity to secure a productive group of cows. These cows are medium to large-framed. They represent an ideal trade opportunity, as most have good frame, perfect for fattening or keep as future breeders. The top steer calves from this group were sold a few months ago at Wagga Wagga, with the top draft weighing 380kg before reaching 12 months of age. Scotts Angus bull S205 has been back with the herd for 5 weeks and will come out at delivery. All females were originally purchased in 2022 through AuctionPlus as two-year-old PTIC heifers or heifers with calves, along with a small line of five-year-old cows. While the majority are younger, there may be the odd cow eight years of age, though none were identified at assessment. Please note a few cows show slight old pink eye scarring. Please call with any questions.
