Assessor Comments	Even line of 3 year old second calving Angus heifers Preg tested in calf by a registered vet to Rennyleigh Angus bulls to calve Oct-Nov. All heifers have raised a calf last year, and were joined late due to a bull breakdown. Coming out of a long hard winter, they have withstood the test and are starting to freshen up well on the fresh pick and sunshine. With age on their side they present as a sound trade opportunity. The odd heifer may be further in calf . But nothing unfit to load will leave the farm.
