Other Joining Details

Joined to Fernhill & Jarabee Angus bulls

Quality Grades		Store Condition		Muscle Score	
Very Good	15%	Fwd Store	90%	C	100%
Good	85%	Store	10%		

Temperament	Yards	Crush	Paddock
	Quiet: 17 head	Quiet: 10 head Slightly Stirry: 7 head	Quiet: 17 head
	Quiet in the yards and paddock, no concerns when moving. Handful of heifers shows mild stress in the crush but remains manageable with minimal handling.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	This is a quality group of 17 Angus heifers, PTIC, showing solid frame and condition for their age. Their temperament is generally good, though they may need careful handling in the crush. They are bred to well-known Fernhill & Jarabee Angus bulls, ensuring high genetic quality for both the heifers and their future progeny. With their moderate to large frames and solid health, these heifers are well-positioned to perform strongly in future breeding and will contribute positively to any breeding program. Vendor has another lot of heifers that are a run out of the gate, if you are wanting to put a line of 35 Angus PTIC heifers together look no further. Please note there are 4 heifers with a touch of pink eye scarring & 2x heifers with white udders.
