Assessor Comments	A very good line of mature aged cows with a very even fresh line of calves at foot. Cows range from 4 to 10 years of age, with good frame and milking very well give a great start to their calf at foot. Calves will be marked and injected with 5 in 1 before leaving property. The majority of the display freshness good medium to large frame. They are capable of fast compensatory weight gains given opportunity. . The Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases. Great opportunity in current beef climate to maximize investment.
