Assessor Comments

Buyers on offer is a small line of 21 Charolais x PTIC heifers in calf to a very good quality low birth weight U8J Angus bull. These heifers were brought out of Toogoolawah saleyards as light weight weaners and have been backgrounded for the last 12 months. The bull went in on the 14th of may and was taken out on the 13th of August they were all preg tested on the 29th of september by a vet in calf. These heifers would be perfect to calve out to low birth weight angus bull and go back to a bull of your choice with their whole lives in front of them to breed plenty more calves over the next few years.
