	All cows handled well through yards during assessment and preg test, also walked out of the yards and to their paddock calmly					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	Buyers here is a great little line of Quiet Angus cross cows PTIC over 4mths. These cows are all in calf to Burenda Angus bulls and set up to calve late spring into summer. All cows were purchased as quality weaners and put into breeding program and are only for sale due to vendor taking a different direction. Cows posses good frame and healthy condition in preparation for calving. These cows all have proven their fertility with a strict preg test system at every wean. All cows have a long breeding life ahead of them with the oldest only on their 4th calf and 12 heifers in the run being 4 teeth or under. They are all quiet to handle and were never a problem during preg test and assessment. Would be an asset to any existing herd or great little mob to start. 4 cows had minor scarring in one eye. Please note vendor has 20 x 20 cow & calf and 67 PTIC angus cows in same sale.
