Assessor Comments	Buyers here is a fantastic line of predominantly Angus Angus PTIC over 4 months young cows. These cows are all in calf to Burenda Angus Bulls and due to calve late spring into Summer. All cows have got a long breeding life ahead of them with 19 of them being 4 teeth and under with remainder only on their 4th calf. These cows were all purchased as quality weaners and put into breeding program and are only for sale due to vendor wanting to take a different direction. Cows possess good frame and are in healthy forward store condition in preparation for calving. These cows all have proven their fertility with a strict preg test system at every wean. They were very good to handle and assess, walked out calmly to their paddock. 8 cows had minor scarring in one eye. Please note vendor also has 20x 20 cows & calves and 25 Ptic over 4mths Angus cross cows in same sale.
