	A well educated mob of Angus heifers & calves to handle. Flowed easily around the yard with no fuss. Have been well and frequently handled over the last twelve months. Cattle you can send anywhere.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	A real deal line of July / August calving Angus heifers now with their first calf at foot by high indexing Millwillah Angus sires . Put together as a larger line last autumn through the CTLX Blue Ribbon weaner sale series, these heifers went through an AI program but landed in calf to the Millwillah cover sires. No expense has been spared preparing these heifers for their life ahead. All animal health protocols have been followed with a full Pesti and 7in1 vaccination program completed and boosters given. The attractive July / August calving date gives these heifers plenty of versatility to suit a wide area. Just now coming out of a very long and cold Oberon winter these heifers are starting to hit their straps as the season warms and the feed gets away. Show them the spring and watch them flourish.
