Temperament	Yards		Crush	Paddock
	Quiet: 20 head		Quiet: 20 head	Temperament not assessed in Paddock
	These cows were a pleasure to handle right throughout the drafting and weighing process. Each cow stood still on the scales in the crush and waited contently then walked on when asked to move. Not docile as they moved off when asked without hurrying at anytime. These cows showed no signs of temperament issues even when the calves were being pulled of them.

Assessor Comments	A Tidy line of Mixed aged (2 - 11years), Quiet, Quality, moderate to large frame, pure Red Angus cows, presenting in strong store to forward store condition doing a magnificent job on their progeny. The calves present unmarked (52-169kg) in fresh condition exhibiting great squareness, softness and structure for such a young age. This unit on offer creates a great opportunity in purchasing youth with all cows bare 1 being 8 years & younger that will do a job in any intended breeding program for many years to come. The Pibbon Red Angus herd follows the direction and beliefs of Kit Pharo with all calves either being AI'd to Pharo genetics or joined to Pibbon Red Angus bulls. Note: A small % of cows displayed itching around neck area which is common for this time of the year & was deemed non detrimental. "Breeding females are the future of the cattle industry"- BUY WITH CONFIDENCE.
