Assessor Comments: Cows and Calves that would suit a restocking program or split mob. Very good Hazeldean & Rockwood Blood Cows with the hard work being done with the calves on the ground and extremely sappy. Cows are best described as large frame Angus females with a small % of medium and smaller frame dams. The cows present in Store to Forward Store condition, with calves averaging 120kg the cows are putting everything into them. These cows were purchased from a breeding herd PTIC when conditions were dry in the south. They are in their peak breeding period being 7-8 years old. They were bought being some younger 4,5,6 year old's through the mob but cannot be guaranteed.
