	3 Head Old Blight Scar					
Assessor Comments	Genuine line of vendor bred Poll Hereford cows & calves that have come through winter on short native pastures and will jump ahead with a drench and improved feed. Majority of the cows are good frame cows and will fatten into heavy weights, some of the older calves are showing signs of self weaning or limited milk, majority present in fresh condition. Bull has been running with the cows year round with an expectation that the mothers of the older calves would be back in calf. Cows are being sold due to the property being sold.
