Assessor Comments	Top quality 3in1 units that are hard to find. These autumn calving cows are in the prime of their breeding lives with years left in them. Cows present in forward store condition with coming through a long and tough winter at Batlow. Cows have done a great job on calves considering the conditions and are really just starting to do now with some feed in front of the therm. Cows and calves would really bounce away with more spring grass. Vendors only selling due to making room for heifers. Noted at the assessment was how good the milk was in these young cows. These units come highly recommended assessor. Please note 2/3 calves showing slight Limo influence.
