Notable Traits	Traits		

Assessor Comments	22 x Angus heifers 22-23 months old. 436 kgs average. PTIC to a proven Yallambee low Birthweight Angus bull. Joined in June/July and Preg tested by a registered vet as 3-4 months in calf. Classed into two lines, this is the top 22 heifers. All typical Angus heifers showing plenty of depth and length body. Heifers present in forward condition and have done very well in the past two months, with good nutrition i believe they will continue to mature and grow towards calving in the Autumn.
