Assessor Comments	Angus Heifers , August/ September 2024 drop very well bred sired by Rennyalea & Hazeldean blood bulls .These heifers are only being sold to reduce numbers they are normally retained . But season is still a very tight so vendor has decided to sell. All animal health treatments up to date they present in store condition ready to really jump away in the spring months. Note about 4 heifers have warts & the odd one has bare patches on there hide not detrimental they will recover.
