Temperament	YardsCrushPaddock Quiet: 45 head Slightly Stirry: 5 head Quiet: 40 head Slightly Stirry: 10 head Temperament not assessed in Paddock Cattle were easily handled throughout the assessment. They were worked nice and quietly around the yards and reacted accordingly. There was a small percentage of heifers that were slightly stirry when put up the race and in the crush but all animals settled down very quickly when put in with the mob and were not pressured. Please see videos for temperament, all animals quite content when being filmed in the bigger yards.
Handled With	Bikes , Dogs , Vehicles

Notable Traits	Traits 1 Head Slight blemish/blue eye scarring in one eye only 2 Head Small patches of white on undercarriage
Assessor Comments	On offer is a good quality line of NSM Angus feeder heifers that were weighed between 387-516kgs to Av 454kgs LW. Vendor has had a meticulous AI program in their herd for the past 20 years and these heifers certainly compliment that, with plenty of length, frame and overall type. This article would be ideal to feedlot or finish on grass, given their condition, age and weight. There would be plenty of compensatory gain to be had with the right feeding. For further information please call assessor.
