Overall these cattle handled well considering a handful had only been taken off their mothers 2 days prior to the assessment. Typical of freshly weaned cattle some of these cattle were unsettled when pressure was applied in the yards but once taken off they settled. I believe once all these cattle have completed their weaning they will be good cattle to handle.

Assessor Comments	Quality line of vendor bred Angus weaner steers. These weaner steers are sired by quality Annaleine & Arden Angus bulls and bred out of medium frame Hazeldean & Arden Angus blood females. Steers are in ideal condition to power ahead come spring. Ideal cattle to background to feeder or heavier weights. These steers are eligible for grassfed programs and are antibiotic free. The vendor will also offer 23 Angus Weaner heifers in the same sale.
