Overall these cattle handled well considering a handful had only been taken off their mothers 2 days prior to the assessment. Typical of freshly weaned cattle some of these cattle were unsettled when pressure was applied in the yards			

Handled With	but once taken off they settled. I believe once all these cattle have completed their weaning they will be good cattle to handle. Bikes
Notable Traits	Traits 1 Head Old eye scarring (1 eye only). Not detrimental in assessor's opinion ref to Photos 2 Head White on belly behind navel
Assessor Comments	Quality line of vendor bred Angus weaner heifers. These heifers are sired by quality Annaleine & Arden Angus bulls and bred out of medium frame Hazeldean & Arden Angus blood females. Heifers are in ideal condition to power ahead come spring. Ideal heifers to either grow out & retained as breeders or to background to heavier weights. These heifers are eligible for grassfed programs and are antibiotic free. The vendor will also offer 13 Angus Weaner steers in the same sale.
