	These heifers are extremely easy going, easy to handle in the yards and in the paddock.		
Handled With	Dogs , On foot , Vehicles		
Assessor Comments	A quality line of AI bred Angus heifers, sired by Tattykeel Ironjack Q31, an outstanding sire backed by proven, highly maternal cow families. All heifers were AI bred and born in a tight calving window between 17/07/2024–10/08/2024, offering buyers a highly even draft, of genuine replacement heifers. These future breeders are out of moderate, thick, deep-bodied dams carrying Rennylea, Stoney Point & Coolana Park bloodlines, ensuring performance and fertility. At assessment, heifers weighed 253–333kg to average 279.7kg. The steer portion this year sold to Wyalla Beef, Texas QLD, with previous years supplying Teys Feedlots with excellent feedback. A genuine opportunity to secure quality replacement females with genetics and type to perform in any breeding program, that are only being offered due to poor seasonal conditions, these heifers would have been retained. Please note: Lake Midgeon are also offering 28hd at Lot 10021717.
