Assessor Comments	An outstanding line of well bred Angus heifers, sired by elite Tattykeel Angus bulls and backed by generations of highly productive cow lines. These heifers are bred out of moderate, thick, deep bodied dams carrying Rennylea, Stoney Point, and Coolana Park blood, ensuring proven maternal performance. At assessment, the heifers weighed 200–250kg, averaging 233.1kg. With the steer portion this year selling to Wyalla Beef, Texas QLD, and previous years supplying Teys Feedlots with excellent feedback, buyers can purchase with confidence. These heifers show the depth of breeding to grow into exceptional breeders, with the structure, body type, and genetics to perform in a variety of operations. One heifer (V71) noted with minor pink eye scarring. An ideal opportunity to secure quality females with an excellent maternal foundation and consistent performance history. Only being sold due to seasonal conditions. Please note: Lake Midgeon are also selling 56hd at lot 10021717.
