Quiet: 88 head
Slightly Stirry: 20 head

Quiet: 108 head

Majority of these Heifers are quiet however are off a big pastoral property so can become slightly stirry if a lead takes off.
Would suggest having good yards and facilities.

Assessor Comments

A very even line of 252 backgrounder Angus Heifers split over 3 lots (1 x B-Double, 2 x 2 decks). Heifers are August/September 2024 drop and are well bred out of Banquet and Yamba Angus bulls. These heifers are well grown for age and are all frame, they are certainly not carrying any excess weight. Heifers weighed between 250 and 325kg and averaged 298kg at assessment, These heifers have just begun to do in the last week and on fresh feed and warmer weather will not take long to get to feeder weights. Some Heifers are showing rub marks from lice, Vendor has drenched with cattlemax (4.8.25). There was also a bull observed with the mob and removed (4.8.25), all heifers have been PG'd for buyer confidence at assessment.
