Assessor Comments	A mixed sex line of Akaushi Red Wagyu X Hereford calves that present in light, store condition. Out of first calving heifers which have been through a very tough season. Study the media and you will see that there are half a dozen smaller calves but the majority are of reasonable frame, albeit with no weight, being to the Purchaser's advantage. Sired by Fullblood Red
-------------------	---

Bull Id. AMGF22T24, bred by AKA Wagyu Stud. Selected as being ideal for terminal joining with high growth figures compared to breed averages. I don't think I could be accused of hyperbole in saying this lot represents a "unique buying opportunity". The calves have no weight but are strong and good to travel. The Vendor wants to sell and will place a sensible Reserve. Given time, feed and TLC these calves have the potential to be real money spinners. Please note that they have not received any health treatments.
