Assessor Comments	35 Angus Steers - Acc SHS Civil - Tops of the drop with a 20% tail removed. Quality line of store condition angus steers well grown & in strong store condition, but on the do. Murdeduke sired steers out of Murdeduke & Te Mania blood cows selecting sires for above average 400 day growth & muscle. There is a long history of performance from this herd (ST Hamilton) with both steers & heifers always having fed on well and these i expect will be no exception with steers starting to gain weight in a tough Ararat season. Steers will be ideal to take out to Feeder weights or grow on to bullocks. Drenched & Vacc at weaning they are ready to bounce away with the spring. Reserved \$1050 *Note some rub as you can see but drenched & is clearing up. Also very odd (less than 5 & nearly unnoticable) old pink eye scar not deemed detrimental in steers.
