Assessor Comments

46 Angus Heifers - Acc SHS Civil - Tops of the drop with 20% tail removed. Nice quality line of store condition angus heifers well grown, in strong store condition & on the do. Murdeduke sired out of Murdeduke & Te Mania blood cows selecting sires for above average 400 day growth & muscle. There is a long history of performance from this herd (ST Hamilton) with both steers & heifers always having fed on well and these i expect will be no exception with heifers gaining weight in a tough Ararat winter. Heifers will be ideal to take out to grow out for a dual purpose proposition, they would make good breeders. Drenched & Vacc at weaning they are ready to bounce away with the spring. Reserved \$900. *Note drenched so coat is starting to clean up. Also the very odd old Pink eye scar (in less than 5 heifers & one eye)) but can hardly see & not deemed detrimental to heifers. *SHS Civil are offering 81 Weaners in total in two lines in sale.
