Assessor Comments	A quality line of Angus weaner steers, August/September 2024 drop, EU Accredited and yard weaned for 5+ days. Cattle have come through a tough season but are on the do, showing good recovery and responding well to feed. Ideal steers for backgrounding or feeder programs. Ready to perform given the opportunity. Note: A small percentage of the draft show signs of pink eye scarring, and some calves have visible ringworm. These issues are superficial and not expected to impact long-term performance.
