Assessor Comments	A well-bred line of purebred Simmental steers that are of moderate frame with strong bone and present in sound forward condition carrying their Winter coat. Ideal steers to grow on to heavy export carcase cattle on either grass or grain. Bred out of a moderate to large frame cow herd and sired by stud sires, steer's that have the potential to go on with management. * Note traditional coloured Simmental, with 2 blonde and 2 red calves amongst the group - 1 steer carries a few small warts on its jaw which are not detrimental to its health. The steers which carry horn (1 Horned & 1 Tipped) have very small horns that are less than half their ear length.
