	Quiet natured young Heifers that are respectful of their surrounds and the people that are handling them, a pleasure to work with.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	A quality line of young Heifers that present in forward store condition with ample frame and bone for age. Cattle that have a wealth of breeding from a solid cow herd by high index bulls which is well reflected in the style of animal that make up this line. They are looking a little wintery in the coat which is to be expected with 1 head that has a slight smoky coat and 2 head have a white slash on the belly. Note - Any heifer that has had pinkeye has been treated with Orbenin Eye Ointment as treatment and cure or if they had a clinical case of pinkeye antibiotics were injected into the eyelid to drizzle over the eye. # Calves identified at assessment - 2 Head with old ringworm scars that were hairing over. 2 Head had evidence of a cloudy eye. 1 Head with a faded white dot on the eye - in the assessor and the vendors opinion none of which are detrimental to the animal's health or productivity.
