This line of steers flowed well through the yards. When not rushed these cattle kept calm. At stages when extra pressure was put on some did become agitated. With calm handling these cattle were no fuss.

Assessor Comments	This line of steers are packed with quality and breeding. The Braid family meticulously look after their herd and it shows through the quality and performance of their cattle. This line of steers are a genuine June/ July 24 drop and are powering ahead now that the spring has arrived. Usually these steers are easily pushed on to heavy kill weights by the end of spring but given the impending property auction for "Cronga Peak" in early October these steers are on the market as feeders. They come with the highest of recommendation by any previous purchasers of these cattle with their high performance at the forefront.
