Assessor Comments	A first rate three deck consignment of Angus feeder steers right at the top end of the quality bracket. The fact that these calves are only 12 - 13 months of age speaks volumes to their genetic potential. By Millah Murrah, Choice and Hollywood			

Angus sires ex Rennylea based cows they certainly have plenty behind them. Presenting in prefect feed on condition as the Molong district heads into spring. These steers received their first Bovilis MH+IBR vaccine last Thursday so should have their 14 days up prior to delivery. Note in assessment happy to give an extended 14 day delivery if that helps with your intake. Also note happy to take arrival weight at your feedlot (obviously on registered bridge) with no shrink, otherwise nearest registered weigh bridge full less 5%. Well worth a very close look
