Handled With	Steers were very easy to handle through the yards & crush.			
	Bikes , On foot , Vehicles			

Notable Traits

Traits

6 Head Eye Scar

Assessor Comments A very attractive line of 7-9 month old EU accredited steers from a long term Team Te Mania herd. This line of steers averaged 255kg full (210-328kg) at assessment and represent the top 50% of the drop. They present in strong store condition and will continue to develop into long bodied steers with plenty of frame given their genetic background. All steers are considered very quiet & easy to handle in the yards & crush. The Stewarts produce large lines of even feeder steers and have a very good feedlot reputation for performance and marbling - very rarely are these steers offered at these weights. Only offering due to the tight season providing an ideal opportunity at the start of spring to add weight quickly and take advantage of the promising market outlook.
