Assessor Comments	A very good line of 40 x July/ August 2024 Drop Angus Steers. A high quality line of steers that are by high indexing Hazeldean Sires bred from a large framed cow herd based on Hazeldean and historically Myanga blood. The steers exhibit great weight for age and will grow into impressive heavy feeders or bullocks. Currently grazing a Triticale crop and supplemented with Lucerne Hay, the steers are doing very well and will continue to perform up until delivery. Tops of the drop, the steers are normally sold direct to the feedlot, they are being offered for sale as the room is needed for more stock coming through. Thuroona Pastoral take great pride in their cattle, breeding and husbandry is a feature. Highly recommended steers with bone and muscling a feature. Note: The steers have been vaccinated with 2 x Bovilis MH + IBR shots. Batch Number etc. is available.
