Assessor Comments	Nice run of Weaner heifers, weaned early and have done reasonably well with a frosty cold winter. Recently drenched with Dectomax V, Copper injection & B12/Selenium so ready to steam ahead with fresh spring growth. Never Ever accredited & Greenham Beef Sustainability Standard Tier 2. Perfect for a brackgounder take through to feeder weight, or to run on as breeder heifers. Have been well handled with low stress Stock handling, Have been grazed behind strip tapes which are moved 2 to 3 times a day via an auto grazing system. These heifers were great to handle in the yards and Holding Areas throughout the whole assessment.
