Assessor Comments	Quality Wagyu cross hfrs ready for any feeder or breeder operation, all the hard work has been done getting the frame in these hfrs. With the hybrid vigour of the shorthorn breeding, bring words such as muscle, growth and big boned frame come to mind. Presenting well given the season and resnet wet conditions. Working quiet through the yards and handling well in the crush these cattle are bred for great herd management and excellent quality. Note: 1 hfrs does present lame on day of assessment, as it has suffered a cut to its front near side hoof, if it's still lame on delivery date then arrangements can be made for its removal or else discussed.
