Assessor Comments	Presenting the second of two drafts of steers on offer from our vendor today. Steers that show excellent breed traits and characteristics with tremendous growth for age with length of body, cover and natural thickness. These steers have been fed on a mix of fodder crops and a grain free pellet ration with consistent weight gains allowing them to present in forward order in a short period of time. These steers are backed by leading AI genetics giving them the ability to continue to grow into heavy bullock types, well handled and electric fence trained.
