Temperament not assessed in
Paddock

Steers were great to handle in the yards, some typical nervousness as you would expect from young cattle. 4 became restless and 1 became agitated when too much pressure was applied. Most were sensible on the scales, some would rock back and forth which are listed above as slightly stirry. Electric fence trained.

Assessor Comments A quality line of well bred Angus and Baldy steers that are moving forward quickly and have the ability to grow out into heavy trade or export weights. These steers have great frame, shape and depth and are out of medium to large frame cows. Vendor has focused on sourcing sires with top carcass traits with the majority of steers being AI bred. Showing excellent weight for age, these steers should continue to make solid gains with warmer weather approaching. Never Ever accredited, Greenham Beef Sustainability Standard, electric fence trained. * Please note vendor has 2 other lots in this sale.
