Assessor Comments	Trengove Partners are offering 248 classed in ewe hoggets, averaging approximately 60kg with a healthy wool rebate. Presenting in predominantly score 3 condition all the work is done with these ewes and they are well set for life. These ewes presented with excellent white, bright wools and provide an opportunity to take advantage of the buoyant non-mulesed market . Moderate framed but showing deep sides and wide hips, correlated with positive fat and muscle ASBVs. The vendor traditionally weans 100% and finishes their x-bred lambs in under 6 months, merino wethers in under 8 all averaging 25-28 kg carcasses. The ewes do this whilst cutting 3.5 kgs of 18 micron wool every 6 months. These ewes represent opportunity to purchased data backed ewes for either a merino, maternal or terminal program.
