| Assessor Comments                     | On offer is a good line of Pooginook blood wether lambs from the Death family of Caragabal. These are the top 415 with a large 25% tail removed. May/June drop these young lambs would given the right conditions grow into export lambs in the Autumn or continue on as great wool cutters. Vendor has previously feed-lotted his wethers with pleasing results.                            |            |            |             |
