Assessor Comments	Buyers, the Logan family will offer 460 2nd x suckers sired by top quality poll Dorset rams from their very own Kyamma poll Dorset stud and out of large framed 1st x ewes purchased predominately out of Forbes Xb ewe sales. This lot of suckers represent the middle run of lambs from the entire drop that will stay on their mothers until delivery. All lambs were individually weighed btween 34-42kg. They are really starting to hit their straps with the improving feed and sun on their backs. They have the genetics to suit any market and have in the past been fed out to target export markets. Very nice lambs that come with the highest recommendation. Lambs will be sold as 2 lots of 230 on a run out the gate basis.
