Assessor Comments	Excellent line of well bred lambs, well weaned going forward well. Lambs are showing excellent weight for age and would be ideal for finishing on grain/pasture. These lambs have plenty of breeding and have previously been grown out to excellent export weight lambs. Lambs have had all treatments including preventative fly treatment at weaning over full body. Lambs have been well imprinted to grain on mothers and since weaning so expect to induct quite well to a feedlot situation. Very odd dag will be crutched before delivery.
