Assessor Comments	A very neat line of young winter drop store lambs. These lambs have been sired by high indexing Cloven Hills Maternal composite rams. All of these lambs have been individually weighed between 20 and 32 kg with a tail removed at assessment. They have been weaned and are grain trained to a lick feeder receiving a lamb finisher pellet in the paddock. These lambs are positioned perfectly for the discerning lamb finisher to continue growing them out into top shelf trade or export lambs. These lambs are proven performers off crop or in a feedlot with the vendor regularly finishing them into supermarket specifications. Young lambs that will grow out into very neat lambs given the opportunity.
