Quality Grades

Very Good	100%
-----------	------

Assessor Comments Offering a quality line of pure Cloven Hills Wether lambs that all went through an auto weigh/draft system at assessment. Bred out of the top 15% of Cloven Hills Rams which are selected for muscle, early growth, post weaning weight, eye muscle, and positive fat. These are a very nice line of purpose bred composites, that have given great satisfaction to previous buyers. Vendor has retained these lambs in the past and finished on crops, and that year they did go on to make heavy export weights. They have also been purchased by feedlotters that have been very satisfied with their compensatory growth. These are the 2nds out of 1500 wether lambs. Please note the bottom draft was removed and retained at assessment.
