Assessor Comments	This is a very smart, even line of purpose bred and prepared store lambs. The Paech family have made a conscious plan to market their last 3 drops of lambs as top end store lambs. No expense has been spared to ensure that these lambs have a great foundation of management & animal health to be a successful trade for the buyer. The Paech's have embraced electronic NLIS tags & data measurement capturing individual weights of all lambs & pre weighing all of this line from 25-35kg. This 2nd draft with a 10% tail retained. They have a measured average daily weight gain of 100g/hd/day over the last 50 days. Sired by top end Otto White Suffolk & Ferndale Poll Dorset rams, that are selected for growth and muscling. The ewe base are predominantly White Suffolk first & 2nd cross ewes. These grain imprinted lambs are well grown and have the capability to meet any market. All lambs are crutched. Highly recommended. Please note the vendor another line of 348 heavier lambs also in this sale.
