| Assessor Comments        | 135 woolly wether lambs with a very healthy 40 to 51 kg to av 47.5 kg after 100% weighed and these lambs have all ready had a start on lamb finisher pellets. These lambs were purchased in during August to help with weed control and once job was done have been started on pellets . With a 63mm wool rebate these lambs should go ahead if shorn and don't think they would have any problem reaching export weights |     |                |     |               |     |
