Assessor Comments	Nice line of 315 shorn XB ewe lms.. Lambs averaged 40.9kgs., weight range 35-48KGS.. at assessment. They are weaned, well bred, moving ahead and ready to bound away with the right feeding regime. Lambs bred from top quality Ella MATTA composite sires, over medium-large frame mo ewes. These ewe lms would make fantastic future breeders, they normally would be retained as breeding ewes but vendor is selling due to change in direction. This is the complete drop of ewe lms with the tail & a few slaughter lms off. A nice even line nearly ready to mate. All lms have been weighed through an auto drafter.
