Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	Good quality young, fine - medium Merino ewes which have experienced a very difficult season but are starting to improve with access to better Spring feed. This group of assessed ewes represents the seconds from "Congou". At the classing of the complete drop of ewe weaners this year, approximately 10% were culled, 65% retained, leaving this group of 136 (or 25%) classed out as seconds. Under the right conditions going forward, this lot would be ideal to join to terminal or maternal rams.
